The use of such logo and trademark is pursuant to a **Trademark No Objection Certificate (NOC)** granted by *Onix Renewable Limited*. The Company does not own the said trademark and logo and does not have any proprietary rights therein. The continued use of the logo and trademark is dependent upon the validity and continued subsistence of the Trademark NOC and the willingness of the Promoter to permit such use. There can be no assurance that the Trademark NOC will not be withdrawn, revoked, modified, or terminated in the future, or that the terms thereof will remain unchanged. Any such withdrawal, revocation, modification, or termination may require the Company to cease using the logo and trademark.

In the event that the Company is required to discontinue the use of the logo and trademark, it may be required to undertake rebranding activities, including but not limited to changing its corporate identity, marketing materials, signage, and digital presence. Such rebranding could involve significant time, cost, and management effort, and may result in loss of brand recognition, customer confusion, negative publicity and potential disruption to the Company's business operations.

Further, since the logo and trademark are associated with the Promoter, any adverse developments, reputational issues, litigation, or regulatory actions involving *Onix Renewable Limited* could adversely impact the Company's brand perception, even though such events may not be directly related to the Company's operations or performance.

Accordingly, the Company's dependence on the Promoter for the continued use of the logo and trademark may expose it to risks which could have an adverse effect on its business, results of operations, financial condition, and prospects.

4. ***Our business operations are majorly concentrated in certain geographical regions and any adverse developments affecting our operations in these regions could have a significant impact on our revenue and results of operations.***

The operations of the Company are carried in the state of Gujarat. Due to the geographical concentration of our major clients, our operations are susceptible to local, regional and environmental factors, such as social and civil unrest, regional conflicts, civil disturbances, economic and weather conditions, natural disasters, demographic and population changes, and other unforeseen events and circumstances. Such disruptions could result in the damage or destruction of a significant portion of our manufacturing abilities, significant delays in the transport of our products and raw materials, loss of key managerial personnel, and/or otherwise adversely affect our business, financial condition and results of operations. In addition, we generate major domestic sales through our customers situated in Gujarat. Such geographical concentration of our business in this region heightens our exposure to adverse developments related to competition as well as economic and demographic changes in this region, which may adversely affect our business prospects, financial conditions and result of operations. Further, as we enter into new markets and geographical areas, we are likely to compete with not only national players, but also the local players, who might have an established local presence, and are more familiar with local business practices and have stronger relationships with local distributors, dealers, relevant government authorities, suppliers or are in a stronger financial position than us, all of which may give them a competitive advantage over us. Our inability to expand into other areas may adversely affect our business prospects, financial conditions and results of operations. While our management believes that the Company has requisite expertise and vision to grow and mark its presence in other markets going forward, investors should consider our business and prospects in light of the risks, losses and challenges that we face and should not rely on our results of operations for any prior periods as an indication of our future performance.

5. ***We have issued Equity Shares at prices that may be lower than the Offer Price.***

The Company have allotted 1,85,13,885 (One crore Eighty-Five Lakhs Thirteen Thousand Eight Hundred and Eighty-Five) fully paid-up equity shares of face value Rs. 10/- each at an issue price of Rs. 264/- per share (including a premium of Rs. 254/-) on Preferential Basis to Onix Renewable Limited on 13th October, 2025.

The said shares have been allotted for consideration other than cash, in exchange for the acquisition of 89,99,900 equity shares representing 99.99% of the shareholding of Nexgenix Solar Manufacturing Private Limited (Formerly known as Onix-Tech Renewable Private Limited).

6. ***Our Company had negative cash flow in recent fiscals, details of which are given below. Sustained negative cash flow could adversely impact our business, financial condition and results of operations.***

The detailed break up of cash flows is summarized in below mentioned table and our Company has reported negative cash flow in certain financial years:

(Rs. in lakhs)

Particulars	31-03-2025	31-03-2024	31-03-2023
Net cash generated/(used) from operating activities	1723.55	319.85	(613.71)
Net Cash generated/(used) from investing activities	(1928.91)	105.01	566.25
Net Cash generated/(used) from financing activities	-	(58.66)	44.56
Net increase/(decrease) in cash and cash equivalents	(205.36)	366.20	(2.90)

There can be no assurance that our net cash flows shall be positive in the future. Any negative cash flows in the future over extended periods, or significant negative cash flows in the short term, could materially impact our ability to operate our business and implement our growth plans. As a result, our cash flows, business, future financial performance and

results of operations could be materially and adversely affected.

7. *We are heavily dependent on certain suppliers and customers for procurement and sale of our traded goods. Any disruption in supply or offtake from such entities may affect our business operations.*

Our business operations are significantly dependent on a limited number of suppliers for the procurement of traded goods and a limited number of customers for sales. Any disruption in supply from, or loss of, such key suppliers or customers could have a material adverse effect on our business, financial condition, and results of operations.

We primarily procure our traded goods from certain key suppliers due to factors such as product quality, transparent pricing, and locational advantages. However, we have not entered into long-term or formal contractual arrangements with these suppliers. Consequently, there is no assurance that such suppliers will continue to supply goods in the required quantities, within agreed timelines, or in accordance with prescribed quality standards and specifications. Any failure or delay in supply, or deterioration in the financial condition or business prospects of these suppliers, could adversely affect our ability to fulfill customer orders on a timely basis.

Further, a significant portion of our revenues is derived from a limited number of customers. The loss of any major customer, reduction in order volumes, or delay or failure by customers to offtake products could negatively impact our revenues and cash flows. In the event of supply disruptions or customer attrition, we may face delays in execution of orders, potential contractual liabilities, and loss of market reputation. Any such adverse developments could materially and adversely affect our business operations, financial condition, and results of operations, and may lead to a significant decline in our revenues.

8. *Our Promoter has common Pursuit vis-à-vis our Company, which may in future lead to conflict of interest.*

Our Promoter is involved in one or more ventures that are engaged in a business similar to that of our Company. Such involvement may give rise to potential conflicts of interest, including in relation to the allocation of time, resources, business opportunities, and strategic decision-making.

There can be no assurance that our Promoter will not have interests that conflict with those of the Company in the future. Any actual or perceived conflict of interest may adversely affect our business operations, financial condition, results of operations, and prospects.

9. *The actual equity stake to be acquired by the Company in NOPL pursuant to its existing and proposed investments may vary and could be lower than currently envisaged.*

The Company has already invested ₹50 Crore in NOPL and proposes to invest additional amounts for acquiring equity stake in NOPL. The transfer of equity against the existing investment and the acquisition of equity against the proposed investment are subject to various factors including final valuation of NOPL at the time of transfer, successful commissioning and performance of the underlying projects, regulatory requirements, and terms agreed under definitive agreements.

Accordingly:

- The equity stake to be acquired against the existing investment of ₹50 Crore may vary and could be lower than the envisaged stake of up to 24%; and
- The equity stake to be acquired against the proposed additional investment of up to ₹58.50 Crore may vary and could be lower than the envisaged additional stake of up to 28%.

In the event of any such variation, the Company's aggregate shareholding in NOPL may be lower than currently expected, which may impact the level of control, return on investment, and the manner of accounting or consolidation of NOPL in the Company's financial statements, which could have a material effect on the Company's business, financial condition and results of operations.

10. *The valuation of NOPL is based on a single valuation methodology and does not consider other valuation approaches, which may result in variation in the determined value and corresponding stake.*

The valuation of equity shares of NOPL Pace Green Energy Private Limited has been carried out using the Discounted Cash Flow (DCF) method under the Income Approach, based on projections and assumptions provided by the management. Other commonly used valuation approaches, including the Market Approach (such as comparable companies or transaction multiples) and Cost Approach (such as Net Asset Value), have not been adopted for determining the valuation.

DCF-based valuation is inherently dependent on future projections, assumptions relating to revenue, costs, capital expenditure, discount rates, terminal value and other financial parameters, which may not materialize as expected. Further, valuation outcomes may differ significantly if alternative methodologies or different assumptions were to be applied.

Accordingly, there can be no assurance that the valuation derived using the DCF method reflects the realizable or market value of NOPL, and any variation in valuation at the time of actual investment or transfer of equity may impact the percentage of stake to be acquired by the Company and the returns on such investment.

11. *Delays or defaults in client payments could affect our operations.*

Our business operations are dependent on timely receipt of payments from our customers. Any delays or defaults in payments by clients may expose us to working capital risks and adversely affect our ability to procure goods from suppliers, meet our payment obligations as they fall due, and efficiently manage our trading operations. Further, our customers' payment obligations are generally linked to our ability to source, deliver, and supply goods of the agreed specifications and quantities within stipulated timelines. Any disruption in procurement, logistics, or supply chain arrangements may result in delays or disputes, which could lead to deferred payments or refusal of payment by customers. Persistent delays or defaults by customers in meeting their payment obligations could have a material adverse effect on our business, financial condition, cash flows, and results of operations.

12. *We are subject to competition from both organized and unorganized players in the market, which may significantly affect the fixation and realisation of the price for our product, which may adversely affect our business operation and financial condition.*

Our industry is highly competitive and includes both organized companies and unorganized players. Competition is mainly based on factors such as pricing, product quality, availability of products, supplier relationships, distribution network and timely delivery. Some of our competitors have larger scale of operations, stronger financial resources, established supplier networks and longer operating history, which may enable them to respond more effectively to changes in market conditions and offer more competitive terms to customers.

Further, unorganized and smaller players often offer products at lower prices due to lower operating costs or thinner margins. We may not always be able to match such aggressive pricing, which could result in loss of customers, lower sales volumes and pressure on our margins.

Our industry is also witnessing consolidation through mergers, acquisitions and strategic alliances. The increased strength of consolidated competitors may intensify competition and adversely impact our market position. Additionally, if any of our competitors or their customers acquire our customers or suppliers, we may lose business relationships, which could negatively affect our business operations, results of operations and financial condition.

13. *Our business is working capital intensive and any inability to arrange adequate working capital may adversely affect our operations*

Our business operations, includes trading, require significant working capital to fund procurement

of raw materials, inventory holding, logistics, and to manage receivables. Any delay in collection of receivables, increase in inventory levels, tightening of credit terms by suppliers, or inability to access adequate working capital facilities on commercially acceptable terms may adversely affect our liquidity position. If we are unable to manage our working capital requirements efficiently, our operations, cash flows, financial condition and results of operations may be materially and adversely affected.

14. *One of our Directors may have interests in us other than reimbursement of expenses incurred and normal remuneration or benefits.*

Our Managing Director, Mr. Piyush Mansukhbhai Savaliya, may be regarded as having an interest in our Company other than reimbursement of expenses incurred and normal remuneration or benefits. Our Managing Director, as applicable, may be deemed to be interested to the extent of Equity Shares held by him, as well as to the extent of any dividends, bonuses, commissions or other distributions on such Equity Shares. We cannot assure you that he will exercise his rights as shareholders to the benefit and best interest of our Company.

15. *We have entered into and will continue to enter into related party transactions. We cannot assure you that such transactions will not have an adverse impact on our business, financial condition, cash flows and results of operations.*

We have entered into various related party transactions in the past. While we believe that all our related party transactions have been conducted on an arm's length basis, we cannot assure you that we could not have achieved more favorable terms had such transactions been entered into with unrelated parties. It is possible that we may enter into related party transactions in the future. We cannot assure you that such future transactions, individually or in the aggregate, will not have an adverse effect on our business, financial condition, cash flows and results of operations or that we could not have achieved more favorable terms if such future transactions had not been entered into with related parties. Further, any future transactions with our related parties could potentially involve conflicts of interest which may be detrimental to our Company.

16. *Our Company has incurred profit in the recent past. But any losses in the future may have a significant adverse impact on our financial condition and may lead to further erosion of our net worth.*

Our company has earned profit in the recent years and but it may incur losses in the future. There can be no assurance that the company will not incur losses in any future periods, or that there will not be any other adverse effect on our financial condition. Given the industry we are functioning in where there are chances of bad debts and deterioration of our products due to fluctuation in demand and supply.

17. *We are highly dependent on our Promoter and our management team and key personnel and the loss of any key team member may adversely affect our business performance.*

Our Promoter, management team, and key personnel have been instrumental in the growth and development of our Company. Our key managerial personnel comprise of our Managing Director Mr. Piyush Mansukhbhai Savaliya and Chief Financial Officer Mr. Sagar Sureshbhai Limbad. In particular, the active involvement of our management team and key personnel in our operations, including through strategy, direction, and relationships have been integral to our development and business. The loss of any of these persons would have a material adverse effect on our operations. Our businesses are dependent upon a core and senior management team which oversees the day-to-day operations, strategy and growth of our business. Our success is largely dependent on our management team which ensures the implementation of our strategy. If one or more members of our key management team were unable or unwilling to continue in their present positions, such persons would be difficult to replace and our business, results of operations, financial condition, cash flows and prospects could be adversely affected. Our future success, amongst other factors, will depend on our ability to continue to attract and retain qualified personnel, particularly persons with critical expertise, know-how and skills that are capable of helping us to strategize, and develop our business

and various business vertical products. Our failure to successfully manage our personnel needs could materially and adversely affect our business, results of operations, financial condition and cash flows. Moreover, if any of our key professional employees were to join an existing competitor or form a competing company or otherwise leave, it could lead to setbacks in the implementation of our plans and strategy. Our failure to successfully manage our employees' needs could materially adversely affect our business, results of operations, financial condition, cash flows and prospects. If we are not able to address these risks, our business, results of operations, financial condition and cash flows could be adversely affected.

18. *We operate in a competitive industry and any failure to compete effectively may result in a decline in our market share, which may have an adverse impact on our business, results of operations, prospects, and financial condition.*

The market for solar PV modules is intensely competitive and continuously evolving. We view our primary competitors to be traditional global and local solar PV module manufacturing companies. Our competitors may have greater technical, operational or financial resources, more governmental support, more effective or established local business presence with specific regional advantages or a greater willingness or ability to operate with little or no operating margins for sustained periods of time in the geographies in which we operate or into which we intend to expand our operations. The competitors' size in some cases provides them with a competitive advantage with respect to manufacturing costs due to their economies of scale and ability to purchase raw materials at lower prices or obtain them at time of shortages. Our competitors may also be able to devote greater resources to the research, development, promotion and sale of their products or respond more quickly to evolving industry standards and changes in market conditions than us. Furthermore, it is possible that new competitors or alliances by existing competitors could emerge and rapidly acquire significant market share, which could adversely affect our market share.

19. *We require certain approvals, licenses and permissions to conduct our business. Our inability to obtain such approvals, licenses or permissions, and any non-compliance with the conditions specified under our existing approvals, licenses or permissions, may adversely affect our operations.*

Certain statutory, regulatory, environmental and operational approvals, licenses, permissions and consents required to conduct our business and for implementation of the objects of the issue, are yet to be obtained. The Company will apply for and obtain such approvals from the relevant authorities at the appropriate stage and in accordance with applicable laws, as and when the implementation of the objects of the issue progresses. Any delay or failure in obtaining the pending trading approval and/or other requisite approvals may result in delays in implementation of the objects of the issue, may adversely affect the Company's compliance status, and could have an adverse impact on the Company's business, financial condition, results of operations and prospects.

20. *The industry surrounding solar module and related technologies may not achieve the growth we anticipate, and in such case, our revenues may decline and we may be unable to sustain our profitability.*

The solar module industry is growing in India and globally. Many factors may affect the demand for, and widespread adoption of, solar power technology and solar PV modules, including policy and regulatory uncertainties (such as sudden changes in policies or incentives), technological advancements towards newer products that could make existing products less desirable, and supply chain disruptions for critical components like solar cell, wafers, EVA sheet and glass. If the demand for solar power or solar power projects fails to develop or takes longer to develop than we anticipate, our revenues may decline and we may be unable to sustain our profitability.

Furthermore, in line with this expected growth, we are expanding our sales operations by targeting new possible orders irrespective of its location, including into where we do not have a significant presence or prior experience. Difficulties in executing this growth strategy, particularly in new geographical locations, may include, among other things, accurately prioritizing geographic markets for entry; including estimates on addressable market demand; obtaining construction, environmental and other permits and approvals; managing local operations; managing fluctuations in the economy

and financial market; and employing skilled employees and engaging appropriate contractors. Any failure to expand into these new markets or regions due to these challenges could adversely affect our sales, financial condition, result of operations, and cash flows.

21. *An inability to provide adequate customer support and ancillary services may adversely affect our relationship with our existing and prospective customers, and in turn our business, results of operations and financial condition.*

Our customers depend on customer support and ancillary services to resolve issues relating to our products and services in a timely manner. However, we and our distributors may be unable to respond to/accommodate short-term increases in demand for our products or associated customer support including maintenance in a timely manner. We also may be unable to modify the nature, scope and delivery of such services to compete with support services provided by our competitors. Increased requests in connection with our products and services, without corresponding revenue, could increase costs and adversely affect our results of operations and financial condition. Our sales are dependent on our reputation and on positive recommendations from our existing customers. Any failure to maintain adequate and timely customer support and ancillary services, or a market perception that we are unable to do so, could result in loss of business and adversely affect our business, prospects and financial performance.

22. *Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and have not been independently appraised and may be subject to change based on various factors, some of which are beyond our control. Further, the schedule of the implementation of the objects for which funds are being raised in the Issue, is subject to risk of unanticipated delays in implementation.*

The section “*Objects of the Issue*” sets out the proposed utilisation of Net Proceeds of the Issue and the schedule within which the Net Proceeds of the Issue are proposed to be utilised. We have appointed Brickworks Ratings as a monitoring agency for the purpose of the Issue pursuant to the Monitoring Agency Agreement and the Monitoring Agency will be required to review the utilisation of Gross Proceeds by our Company. However, the schedule of implementation and deployment indicated in “*Objects of the Issue*” beginning on page 51 are based on our Company’s current business plan, management estimates, circumstances of our business and other commercial and technical factors. Our Company’s funding requirements and deployment schedule may vary on account of a variety of factors such as our financial and market conditions, business and strategy, competition, price fluctuations and other external factors such as changes in the business environment and interest or exchange rate fluctuations, which may not be within the control of our management. This may entail rescheduling or revising the proposed utilization of the Net Proceeds and changing the allocation of funds from its planned allocation at the discretion of our management, including in the event of an under-subscription in the Issue, subject to compliance with applicable laws, provided that the amount to be utilized for general corporate purposes does not exceed 25% of the Gross Proceeds. Further, the fund requirements are on the basis of our estimates and our Company may use the Net Proceeds specified against one Object towards meeting the requirements under another Object, in accordance with the applicable laws.

In the event that the estimated utilization of the Net Proceeds is not completely met (in full or in part) as per the timelines set out in “*Objects of the Issue*” beginning on page 51, due to factors stated above and other factors such as (i) economic and business conditions; (ii) the timing of completion of the Issue; (iii) market conditions outside the control of our Company; and (iv) any other business and commercial considerations, the remaining Net Proceeds shall be utilized (in full or in part) in subsequent periods as may be determined by our Company, in accordance with applicable laws. Further, our Board retains the right to change the schedule of implementation and deployment of Net Proceeds, including the manner, method, and timing of deployment of the Net Proceeds, in case of change in our business requirements and other commercial considerations, subject to compliance with the applicable laws.

We may also have to revise our funding estimates, depending on future contingencies and events, including, among others, changes in laws and regulations, competition; receipt of statutory and regulatory approvals and permits, the ability of third parties to complete their services on schedule

and on budget, delays, commencement of new initiatives, and changes in our business plans due to prevailing market and economic conditions and preference of the viewers.

23. *Any failure to maintain our technical knowledge as confidential may erode our competitive position, which may then have a material adverse effect on our current business, future prospects, financial condition and results of operations*

We possess technical knowledge about our solar PV modules. Our technical know-how is a significant independent asset, which may not be protected by intellectual property rights such as patents but is protected only as a trade secret. As a result, we cannot be certain that our technical know-how will remain confidential in the long run. Employment contracts with certain of our employees who have special technical knowledge about our solar PV modules contain a general obligation to keep all such knowledge confidential. While we take the necessary precautions, whether contractual or otherwise, to protect the confidential technical knowledge about our products, there can be no assurance that such information may be not disclosed to others or become public knowledge due to circumstances beyond our control including by other licensees of technical knowledge. In the event that confidential technical information or know-how about our solar PV modules becomes available to third parties or to the public, our competitive advantage over other companies in the solar industry could be diminished, which may have a material adverse effect on our current business, future prospects, financial condition and results of operations.

ISSUE SPECIFIC FACTORS

24. *Our Company will not distribute the Offer Documents to certain overseas shareholders who have not provided an address in India for service of documents.*

Our Company will dispatch the Offer Documents to such shareholders who have provided an address in India for the service of documents or who are in jurisdictions where the offer and sale of the Rights Equity Shares permitted under laws of such jurisdictions and in each case who make a request in this regard. The Offer Documents will not be distributed to addresses outside India on account of restrictions that apply to the circulation of such materials in various overseas jurisdictions. However, the Companies Act requires companies to serve documents at any address, which may be provided by the members as well as through e-mail. Presently, there is a lack of clarity under the Companies Act, 2013, and the rules thereunder, with respect to the distribution of Issue Materials in overseas jurisdictions where such distribution may be prohibited under applicable laws of such jurisdictions. While we have requested all the shareholders to provide an address in India for the purposes of distribution of Issue Materials, we cannot assure you that the regulator or authorities would not adopt a different view with respect to compliance with the Companies Act and may subject us to fines or penalties.

25. *Limited or Sporadic Trading of the Equity Shares on the Stock Exchanges.*

The equity shares of our Company have experienced limited or sporadic trading on the stock exchanges in the past. As a result, the trading volume and liquidity of our equity shares may be limited and may not accurately reflect the underlying value of our Company. There can be no assurance that an active and liquid market for our equity shares will develop or be sustained following the Rights Issue.

Limited liquidity may result in reduced investor interest and may also lead to increased volatility in the market price of our equity shares. This could make it difficult for shareholders to sell their equity shares at or near the prevailing market price, or at all, at any given time. Such illiquidity may also adversely impact our ability to raise additional capital through the capital markets in the future.

The market price of our equity shares may be subject to significant fluctuations due to various factors, including those related to our Company's performance as well as factors beyond our control, such as general market conditions, macroeconomic developments, industry-specific trends, changes in investor sentiment, and market speculation. Accordingly, historical trading patterns of our equity shares should not be considered indicative of future trading performance or market liquidity. There

can be no assurance that an active or liquid trading market for our equity shares will be maintained after the completion of the Rights Issue.

26. *The rights issue may be undersubscribed, which may adversely affect the utilisation of the net proceeds and our business plans.*

The Rights Issue is required to achieve a minimum subscription of 90% of the Issue size, failing which the Issue shall be cancelled and the application monies shall be refunded in accordance with applicable laws. In the event the Rights Issue achieves the minimum subscription but is not fully subscribed, the Net Proceeds received may be lower than envisaged. Such under-subscription may require us to defer, modify or rescale the Objects of the Issue or their timelines. This may adversely affect our business plans, financial condition, cash flows and results of operations. Any under-subscription may also impact investor perception and market confidence in our Company.

27. *Our funding requirements and the proposed deployment of Net Proceeds have not been appraised by any bank or financial institution or any other independent agency and our management will have broad discretion over the use of the Net Proceeds.*

The purposes for which the Net Proceeds will be utilised have not been appraised by any independent entity and are based on our estimates. These estimates are based on current conditions and is subject to change in light of changes in external circumstances, costs, other financial conditions or business strategies and the passage of time. Our management will have broad discretion to use the Net Proceeds and you will be relying on the judgement of our management regarding the application of these Net Proceeds. Subject to applicable laws, we may have to revise our funding requirements on account of a variety of factors, some of which may be beyond our control, including the changes in costs, our financial condition, business and strategy or external circumstances such as market conditions, competitive environment, interest or exchange rate fluctuations and finance charges. Any failure to implement our plans in a timely manner and as per cost estimates currently available, could have an adverse effect on our business, results of operations, financial condition and growth prospects.

28. *There is no public market for the Rights Equity Shares or Equity Shares outside India.*

After this Issue, there will continue to be no public market for our Equity Shares in the United States or any country other than India. In addition, the holders of the partly paid-up Rights Equity Shares will not be able to trade in these Equity Shares till they are credited to the holders' account as fully paid-up, and thereafter there will also be no public market for the Rights Equity Shares outside of India. We cannot assure you that the face value of the Rights Equity Shares will correspond to the price at which the Rights Equity Shares will trade subsequent to this Issue. This may also affect the liquidity of our Rights Equity Shares and Equity Shares and restrict your ability to sell them.

29. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.*

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for dilution of your percentage ownership of the equity share capital of our Company that may be caused because of the Issue. Renounees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renounees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation (the last day for which is [●]), such Renounee will not be able to apply in this

Issue with respect to such Rights Entitlements.

30. SEBI has recently, by way of Rights Issue Circulars streamlined the process of rights issues. You should follow the instructions carefully, as stated in such SEBI circulars and in this Draft Letter of Offer.

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI Rights Issue Circulars and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see '*Terms of the Issue*' on page 67 of this Draft Letter of Offer.

In accordance with Regulation 77A of the SEBI (ICDR) Regulations read with the SEBI ICDR Master Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to (i) the demat accounts of the Eligible Equity Shareholders holding the Equity Shares in dematerialised form; and (ii) a demat suspense escrow account (namely being [●]) opened by our Company, for the Eligible Equity Shareholders which would comprise Rights Entitlements relating to:

- Equity Shares held in a demat suspense account pursuant to Regulation 39 of the SEBI (LODR) Regulations; or
- Equity Shares held in the account of IEPF authority; or
- The demat accounts of the Eligible Equity Shareholder which are frozen or suspended for debit or credit or details of which are unavailable with our Company or with the Registrar on the Record Date; or
- Equity Shares held by Eligible Equity Shareholders holding Equity Shares in the physical form on the Record Date the details of demat accounts are not provided by Eligible Equity Shareholders to our Company or Registrar; or
- Credit of the Rights Entitlements returned/reversed/failed; or
- The ownership of the Equity Shares currently under dispute, including any court proceedings.

31. Any future issuance of Equity Shares, or convertible securities or other equity-linked securities by our Company may dilute your shareholding and any sale of Equity Shares by our Promoter or members of our Promoter Group may adversely affect the trading price of the Equity Shares.

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by our Company may dilute your shareholding in our Company; adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our Promoter and Promoter Group, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that our Promoter and Promoter Group will not dispose of, pledge or encumber their Equity Shares in the future.

32. You may be subject to Indian taxes arising out of capital gains on the sale of the Right Shares and Rights Entitlement.

Under the current Indian tax laws and regulations, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Additionally, a securities transaction tax ("STT") is levied both at the time of transfer and acquisition of the equity shares (unless exempted under a prescribed notification), and the STT is collected by an Indian stock exchange on which equity shares are sold. Any capital gain realized on the sale of listed equity shares on the stock exchanges held for more than 12 months immediately preceding the date of transfer will be subject to long term capital gains tax in India. Such long-term capital gains

exceeding ₹1,25,000 arising from the sale of listed equity shares on the stock exchange are subject to tax at the rate of 12.50% (plus applicable surcharge and cess). This beneficial provision is, inter alia, subject to payment of STT. Further, any capital gains realised on the sale of listed equity shares of an Indian company, held for more than 12 months, which are sold using any platform other than a recognized stock exchange and on which no STT has been paid, will be subject to long-term capital gains tax in India at the rate of 12.50% (plus applicable surcharge and cess).

Further, any capital gains realized on the sale of listed equity shares held for a period of 12 months or less immediately preceding the date of transfer will be subject to short term capital gains tax in India at the rate of 20.00% (plus applicable surcharge and cess), subject to STT being paid at the time of sale of such shares. Otherwise, such gains will be taxed at the applicable rates. Capital gains arising from the sale of the Rights Equity Shares will not be chargeable to tax in India in cases where relief from such taxation in India is provided under a treaty between India and the country of which the seller is resident and the seller is entitled to avail benefits thereunder, subject to certain conditions.

Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Rights Equity Shares. Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning, investing or trading in the Rights Equity Shares.

33. *Investors shall not have the option to receive Rights Equity Shares in physical form.*

In accordance with the provisions of Regulation 77A of the SEBI (ICDR) Regulations read with SEBI ICDR Master Circular, the credit of Rights Entitlement and Allotment of Rights Equity Shares shall be made in dematerialised form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to the demat accounts of the Eligible Equity Shareholders holding the Equity Shares in dematerialised form.

34. *The Rights Entitlement of Physical Equity Shareholders may lapse in case they fail to furnish the details of their demat account to the Registrar.*

In accordance with the SEBI Circular bearing reference number 'SEBI/HO/CFD/DIL2/CIR/P/2020/13 dated January 22, 2020', the credit of Rights Entitlement and Allotment of Equity Shares shall be made in dematerialised form only. Accordingly, the Rights Entitlements of the Physical Equity Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Physical Equity Shareholders are requested to furnish the details of their demat account to the Registrar not later than 2 (Two) Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least 1 (One) day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar not later than 2 (Two) Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 03, 2018 issued by the SEBI, with effect from April 01, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of Equity Shares). For further details, please refer to the section titled '*Terms of the Issue*' on page 67 of this Draft Letter of Offer.

35. *Our ability to pay dividends in the future will depend on our future earnings, cash flows, working capital requirements, capital expenditures and financial condition. Investors of Rights Equity Shares are only entitled to dividend in proportion to the amount paid up and the voting rights (exercisable on a poll by investors) shall also be proportional to such investor's share of the paid-up Equity Share capital of our Company.*

The amount of our future dividend payments, if any, will depend on various factors such as our future earnings, cash flows, financial condition, working capital requirements, capital expenditures and in accordance with applicable laws. We may decide to retain all our earnings to finance the development and expansion of our business and, therefore, may not declare dividends on the Equity Shares.

Additionally, in the future, we may be restricted by the terms of our financing agreements in making dividend payments unless otherwise agreed with our lenders. The amounts paid as dividends in the past are not necessarily indicative of our Company's dividend policy or the dividend amounts, if any, in the future. There is no guarantee that any dividends will be declared or paid or that the amount thereof will not be decreased in the future.

Further, with respect to the present Issue, investors are only entitled to dividend in proportion to the amount paid-up and the voting rights (exercisable on a poll by investors) shall also be proportional to such investor's share of the paid-up Equity Share capital of our Company.

36. *Investors will be subject to market risks until our Equity Shares credited to the investor's demat account are listed and permitted to trade.*

Investors can start trading the Rights Equity Shares Allotted to them only after they have been credited to an investor's demat account, are listed and permitted to trade. Since our Equity Shares are currently traded on the Stock Exchanges, investors will be subject to market risk from the date they pay for the Rights Equity Shares to the date when trading approval is granted for the same. Further, there can be no assurance that the Rights Equity Shares allocated to an investor will be credited to the investor's demat account or that trading in such Equity Shares will commence in a timely manner.

37. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.*

In terms of the SEBI (ICDR) Regulations, Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Equity Shares to the Applicant's demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political, or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation or financial condition, or other events affecting the Applicant's decision to invest in the Rights Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares.

The Applicants shall not have the right to withdraw their Applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Rights Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

38. *Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.*

Under the Companies Act, any Company incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the equity shares voted on such resolution, unless our Company has obtained government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

39. *There is no guarantee that our Right Equity Shares will be listed in a timely manner or at all which may adversely affect the trading price of our Equity Shares.*

In accordance with applicable laws and regulations and the requirements of the BSE Limited, in principle and final approvals for listing and trading of the Rights Equity Shares issued pursuant to this Issue will not be applied for or granted until after the Rights Equity Shares have been issued and allotted. Approval for listing and trading will require all the relevant documents authorising the issuance of Rights Equity Shares to be submitted. Accordingly, there could be a delay in listing the Rights Equity Shares on the BSE Limited. If there is a delay in obtaining such approvals, we may not be able to credit the Rights Equity Shares allotted to the Investors to their depository participant accounts or assure ownership of such Rights Equity Shares by the Investors in any manner promptly after the Issue Closing Date. In any such event, the ownership of the Investors over Rights Equity Shares allotted to them and their ability to dispose of any such Equity Shares may be restricted. For further information on issue procedure, please refer to the section titled '*Terms of the Issue*' beginning on page 67 of this Draft Letter of Offer.

40. *No market for the Right Entitlements may develop and the price of the Right Entitlements may be volatile.*

No assurance can be given that an active trading market for the Rights Entitlements will develop on the Stock Exchanges during the Renunciation Period or that there will be sufficient liquidity in Rights Entitlements trading during this period. The trading price of the Rights Entitlements will not only depend on supply and demand for the Rights Entitlements, which may be affected by factors unrelated to the trading in the Equity Shares, but also on the quoted price of the Equity Shares, amongst others. Factors affecting the volatility of the price of the Equity Shares, as described herein, may magnify the volatility of the trading price of the Rights Entitlements, and a decline in the price of the Equity Shares will have an adverse impact on the trading price of the Rights Entitlements. Since the trading of the Rights Equity Shares will be on a separate segment compared to the Equity Shares on the floor of the Stock Exchanges, the trading of Rights Equity Shares may not track the trading of Equity Shares. The trading price of the Rights Entitlements may be subject to greater price fluctuations than that of the Equity Shares.

41. *Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may adversely affect the value of our Equity Shares, independent of our operating results.*

On listing, our Equity Shares will be quoted in Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may adversely affect the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

42. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a Company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian Company than as shareholder of a corporation in another jurisdiction.

43. *There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at*

a particular point in time.

Following the Issue, we will be subject to a daily “circuit breaker” imposed by BSE, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based, market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our circuit breakers will be set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The BSE may not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker will limit the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance can be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

Furthermore, prior trading prices may not be indicative of future trading values for the Rights Equity Shares. A stock exchange may halt secondary market trading in our Equity Shares due to market conditions or other reasons. Furthermore, an exchange or market may close or issue trading halts on specific securities, or the ability to buy or sell certain securities or financial instruments may be restricted, all of which may have an adverse impact on our Shareholders' ability to sell their Equity Shares or the price at which Shareholders may be able to sell their Equity Shares at any given time.

EXTERNAL RISK FACTORS:

44. Recent global economic conditions have been challenging and continue to affect the Indian market, which may adversely affect our business, financial condition, results of operations, cash flows and prospects.

The Indian economy and its securities markets are influenced by economic developments and volatility in securities markets in other countries. Investors' reactions to developments in one country may have adverse effects on the market price of securities of companies located in other countries, including India. Negative economic developments, such as rising fiscal or trade deficits, or a default on national debt, in other emerging market countries may also affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy, including the movement of exchange rates and interest rates in India and could then adversely affect our business, financial performance and the price of our Equity Shares.

Any other global economic developments or the perception that any of them could occur may continue to have an adverse effect on global economic conditions and the stability of global financial markets, and may significantly reduce global market liquidity and restrict the ability of key market participants to operate in certain financial markets. Any of these factors could depress economic activity and restrict our access to capital, which could have an adverse effect on our business, financial condition, results of operations, cash flows, prospects and reduce the price of our equity shares

In particular, the demand for solar power products is influenced by macroeconomic factors, such as the demand and supply and price of other competitive energy products, as well as government policies and regulations concerning the solar power industry. The policies and regulations of the government have been very dynamic in the past and hence affect our operations and business. The price of solar power systems and modules are highly volatile and inconsistent in its trends and requires easy availability of low-cost credit for the end consumers. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of our Equity Shares

45. Significant differences exist between Ind AS, Indian GAAP and other accounting principles, such as US GAAP and International Financial Reporting Standards ('IFRS'), which investors may be more familiar with and consider material to their assessment of our financial condition.

The Financial Statements of our Company for the Financial Year ending March 31, 2024, March 31, 2023 and unaudited limited review for the Nine months ended on December 31, 2025 have been prepared in accordance with the Ind AS, the Companies Act, 2013.

We have not attempted to quantify the impact of US GAAP, IFRS or any other system of accounting principles on the financial data included in this Draft Letter of Offer, nor do we provide a reconciliation of our financial statements to those of US GAAP, IFRS or any other accounting principles. US GAAP and IFRS differ in significant respects from Ind AS and Indian GAAP. Accordingly, the degree to which the Financial Information included in this Letter of Offer will provide meaningful information is entirely dependent on the reader's level of familiarity with Ind AS, Indian GAAP and the SEBI (ICDR) Regulations. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Letter of Offer should accordingly be limited.

46. *Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, prospects, and results of operations.*

The regulatory environment in which we operate is evolving and is subject to change. Governmental and regulatory bodies in India and other countries may enact new regulations or policies, which may require us to obtain approvals and licenses from applicable governments and other regulatory bodies, or impose onerous requirements and conditions on our operations, in addition to those which we are in the process of obtaining. New compliance requirements could increase our costs or otherwise adversely affect our business, prospects, financial condition and results of operations. Further, the manner in which new requirements will be enforced or interpreted can lead to uncertainty in our operations and could adversely affect our operations. Accordingly, any adverse regulatory change in this regard could lead to fluctuation of prices of raw materials and thereby increase our operational cost.

The Income Tax Act, 1961 (“**IT Act**”) was amended to provide domestic companies an option to pay corporate income tax at the effective rate of approximately 25.17% (inclusive of applicable surcharge and health and education cess), as compared to effective rate of 34.94% (inclusive of applicable surcharge and health and education cess), provided such companies do not claim certain specified deductions or exemptions. Further, where a company has opted to pay the reduced corporate tax rate, the minimum alternate tax provisions would not be applicable. Any such future amendments may affect our ability to claim exemptions that we have historically benefited from, and such exemptions may no longer be available to us. Any adverse order passed by the appellate authorities/ tribunals/ courts would have an effect on our profitability.

Further, with the implementation of GST, we are obligated to pass on any benefits accruing to us as result of the transition to GST to the consumer thereby limiting our benefits. In order for us to utilise input credit under GST, the entire value chain has to be GST compliant, including us. While we are and will continue to adhere to the GST rules and regulations, there can be no assurance that our suppliers and dealers will do so. Any such failure may result in increased cost on account of non-compliance with the GST and may adversely affect our business and results of operations.

In addition, the Indian Government may make clarifications on interpretation of tax laws, which may even be applicable retrospectively. Uncertainty in the applicability, interpretation or implementation of any past or future amendment to, or change in, governing law, regulation or policy in the jurisdictions in which we operate, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future. Further, if we are affected, directly or indirectly, by the application or interpretation of any provision of such laws and regulations or any related proceedings, or are required to bear any costs in order to comply with such provisions or to defend such proceedings, our business and financial performance may be adversely affected.

For instance, the Government of India has implemented two major reforms in Indian tax laws, namely the Goods and Services Tax (“**GST**”), and provisions relating to general anti-avoidance rules (“**GAAR**”). The indirect tax regime in India has undergone a complete overhaul. The indirect taxes on goods and services, such as central excise duty, service tax, central sales tax, state value added tax, surcharge and excise have been replaced by Goods and Service Tax with

effect from July 1, 2017. The GST regime is subject to evolving amendments and its interpretation by the relevant regulatory authorities. GAAR became effective from April 1, 2017. The tax consequences of the GAAR provisions being applied to an arrangement may result in, among others, a denial of tax benefit to us and our business. In the absence of any precedents on the subject, the application of these provisions is subjective. If the GAAR provisions are made applicable to us, it may have an adverse tax impact on us. Further, if the tax costs associated with certain of our transactions are greater than anticipated because of a particular tax risk materializing on account of new tax regulations and policies, it could affect our profitability from such transactions.

Further, pursuant to the Finance Act, 2025, the Government of India has implemented changes to India's taxation framework, including raising the tax exemption threshold to ₹ 0.12 crore annually and recalibrating tax slabs, with the maximum rate of 30% applying to incomes of ₹ 0.24 crore and above. We have not fully determined the impact of these recent laws and regulations on our business. There is no certainty on the impact of the Finance Act, 2025 on tax laws or other regulations, which may adversely affect the Company's business, financial condition and results of operations or on the industry in which we operate.

With several proposals to introduce further regulatory compliances, additional conditions to be met to receive benefits under existing regimes being introduced, upon any such proposals being notified, we may also become subject to inter alia additional compliances and increased associated costs.

47. Financial instability in both Indian and international financial markets could adversely affect our results of operations and financial condition.

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have an adverse effect on the securities of companies in other countries. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition. The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe and certain economies in Asia. Financial turmoil in Asia and elsewhere in the world in recent years has affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and its business.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition and results of operations. The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections.

There are concerns that a tightening of monetary policy in emerging markets and some developed markets will lead to a moderation in global growth. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, have implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have had the intended stabilizing effects. Any significant financial disruption in the future could have an adverse effect on our cost of funding, loan portfolio, business, future financial performance, and the trading price of the Equity Shares.

48. *Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the Government has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

49. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

As an Indian Company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

Further, under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

50. *Natural disasters, fires, epidemics, pandemics, acts of war, terrorist attacks, civil unrest and other events could materially and adversely affect our business.*

Natural disasters (such as floods and earthquakes), epidemics, pandemics and man-made disasters, including acts of war, terrorist attacks, religious or communal tensions and other acts of violence or war such as ongoing Ukraine-Russia, Israel-Hamas conflict or India's ongoing geopolitical tensions with any of its neighbouring state, many of which are beyond our control, may lead to economic instability, including in India or globally, which may in turn materially and adversely affect our business, financial condition, cash flows and results of operations.

Our operations may be adversely affected by fires, natural disasters and / or severe weather, which can result in damage to our property or inventory and generally reduce our productivity and may require us to evacuate personnel and suspend operations. Any terrorist attacks or civil unrest as well as other adverse social, economic and political events in India could have a negative effect on us. Such incidents could also create a greater perception that investment in Indian companies involves a

higher degree of risk and could have an adverse effect on our business and trading price of the Equity Shares of our Company.

A number of countries in Asia, including India, as well as countries in other parts of the world, are susceptible to contagious diseases and, have had confirmed cases of diseases such as the highly pathogenic H7N9, H5N1 and H1N1 strains of influenza in birds and swine and more recently, the COVID-19 virus. Certain countries in Southeast Asia have reported cases of bird-to-human transmission of avian and swine influenza, resulting in numerous human deaths. A worsening of the future outbreaks of COVID-19 virus, avian or swine influenza or a similar contagious disease could adversely affect the Indian economy and economic activity in the region and in turn have a material adverse effect on our business and trading price of the Equity Shares of our Company.

51. We are subject to regulatory, economic, social, and political uncertainties and other factors beyond our control.

We are incorporated in India and we conduct our corporate affairs and our business in India. Consequently, our business, operations, financial performance will be affected by interest rates, government policies, taxation, social and ethnic instability, and other political and economic developments affecting India.

52. A slowdown in economic growth in India could have an adverse effect on our business, results of operations, financial condition and cash flows.

Our performance and growth are, and will be, dependent to a large extent on the health of the Indian economy and consumption spending by households. Economic growth in India is affected by various factors including domestic consumption and savings, rate of inflation in India, balance of trade movements, and global economic uncertainty. Most of our assets and employees are located in India, and we intend to continue to develop and expand in India.

Our revenue is generated primarily from the sale of solar products. Consumption of these products has increased as a function of increased affluence and purchasing power of retail customers in India, which has been positively and materially affecting our operating results. Consequently, future changes in the Indian economy, especially the purchasing power of consumers, is expected to directly impact our revenues and results of operations

Furthermore, India has in the past experienced high rates of inflation. In addition, from time to time, the Government of India has taken measures to control inflation, which have included tightening monetary policy by raising interest rates, restricting the availability of credit and inhibiting economic growth.

Inflation, measures to combat inflation and public speculation about possible governmental actions to combat inflation have also contributed significantly to economic uncertainty in India and heightened volatility in the Indian capital markets. Periods of higher inflation may also slow the growth rate of the Indian economy and increase some of our costs and expenses. To the extent that the demand for our products decreases or costs and expenses increase, and we are not able to pass those increases in costs and expenses on to our customers, our operating margins and operating income may be adversely affected, which could have a material adverse effect on our business, financial condition and results of operations

53. If global inflation were to continue to rise, we might not be able to increase the prices of our products and services at a proportional rate in order to pass costs on to our customers and our profits might decline, which could have an adverse effect on our business and financial condition.

Inflation rates could be volatile, and we may face high inflation in the future as the global economy had witnessed in the past four years. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of transportation, salaries, and other expenses relevant to our business. Further, high inflation leading to higher interest rates may also

lead to a slowdown in the economy and adversely impact credit growth. Consequently, we may also be affected and fall short of business growth and profitability.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in global inflation levels can increase our operating expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition.

54. The Iran Conflict and Escalating Global Geopolitical Tensions May Adversely Affect the Company's Financial Position, Operations, and Performance.

The ongoing conflict involving Iran and the resulting escalation in global geopolitical tensions may adversely affect the Company's financial position and overall performance. Such developments have contributed to volatility in crude oil prices, inflationary pressures, tightening liquidity, and instability in financial markets, potentially impacting the broader economic environment in India

These factors may increase the Company's cost of funds, affect borrowers' repayment capacity, and place stress on asset quality, particularly in sectors sensitive to supply chain disruptions and rising input costs. Additionally, sustained global uncertainty may weaken investor sentiment and limit access to capital, thereby affecting the Company's growth and profitability.

While the Company continuously monitors these developments and implements appropriate risk management measures, there can be no assurance that the Iran conflict and related geopolitical uncertainties will not have a material adverse effect on its business, financial condition, and results of operations.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/ departments are responsible for granting approval for foreign investment.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The FDI Policy consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy will be valid until the DPIIT issues an updated circular. In terms of the FDI Policy and the FEMA NDI Rules, the foreign investment limit applicable to the sector in which our Company operates is 100% under the automatic route.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under FEMA NDI Rules will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that (i) the activities of the investee company fall under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country ("**Restricted Investors**"), will require prior approval of the Government, as prescribed in the FDI Policy and the FEMA NDI Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA NDI Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India.

Please also note that pursuant to Circular no. 14 dated September 16, 2003 issued by RBI, Overseas Corporate Bodies ("**OCBs**") have been derecognized as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for the issue as an incorporated non-resident must do so in accordance with the FDI Policy and FEMA NDI Rules. Further, while investing in the Issue, the Investors are deemed to have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors. Our Company shall not be under an obligation to obtain any approval under any of the applicable laws on behalf of the Investors and shall not be liable in case of failure on part of the Investors to obtain such approvals.

The above information is given for the benefit of the Applicants / Investors. Our Company is not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Letter of Offer. Investors are advised to make their independent investigations and ensure that the number of Rights Equity Shares applied for do not exceed the applicable limits under laws or regulations.
